Remarks and other information:

BEFORE SIGNING, PLEASE READ THE FOLLOWING

All public rights-of-way and easements shall remain free of buildings, fencing or other obstructions which would prevent the required access to public utilities for routine maintenance or emergency repairs. Placement of said obstructions shall be done at the risk of subsequent damage thereto without compensation therefore. Except for paved surfaces, no other obstructions or improvements shall be allowed on said rights-of-way or easements.

 Building Inspector Date

PLOT PLAN: Make a drawing or sketch of the parcel or tract being built upon. Include all property lines, existing structures, streets, utilities and easements, and proposed location of fence and gates. Indicate the measurements of all parts of the fence and gates. Locate the project on the property with measurements to all lot lines. Show which direction is North.
