The FEMA Community storm shelters will be opened before the outdoor warning sirens are sounded when Webb City is in the projected path of a National Weather Service issued Tornado Warning or Severe Weather Event with life threatening winds (in excess of 75 mph). Have a plan & do not wait until the weather radio alerts or outdoor warning sirens sound to seek shelter away from your residence.

FEMA regulations do NOT allow for pets in any of the shelters; provisions will be made for service animals. Stay tuned to your favorite weather news service for updates.
