2. Committee of the Whole

 Next Council Meeting February 9, 2026

ADJOURN

Administrator's Report 01/26/2026

Winter weather is supposed to arrive this weekend. Hopefully this will be a dry run, but we are preparing our equipment for the worst. Snowplows will all be installed and ready as well as our salt trucks full along with our salt bunkers. If the weather does turn bad, we will go into our snowplow on call shifts in public works to assure we have crews available at any time.

Along with preparing for possible weather, public works staff have been **doing some clearing of the ditch along 4th street near Newmans Auto**. With some recent construction along Main Street we have been working to help water out of the back Alley behind the wastewater building. This water was being slowed by what appears to be a bad storm drainpipe on Tom Street. Crews will be digging up and opening it up in the next few days.

Wastewater crews have located a rather difficult main that needs to be cleaned out. It is reported to be slowed by tree roots having entered the pipe and possibly worse. Wastewater crews will be working to determine what additional repairs are needed and try to clear the pipe.

State of the City was held last week, and it was well attended. I would like to thank the members of the council who were in attendance. It is always nice to see so much interest in what our staff has accomplished in the last year and what the future holds.

The Center Creek 201 Board, at last week's meeting, voted to make a State Revolving Fund Loan application this March for nearly \$6 million in funds to be used for wastewater plant improvements. This would fund additional pumping capabilities and enhance other portions of the plant such as the Ultraviolet light sanitation system and oxidation ditch improvements. These improvements were designated as highest priority within the recently completed 30-year future needs study. Staff will be formulating a ballot question to be presented to each municipal member for approval prior to hopefully making the next November election.

The sidewalk project on East Street is scheduled to be completed on January 30th. If weather becomes bad there will likely be a couple small pours still outstanding and the handrail will not be delivered for a couple more weeks. City staff will be diligently watching to ensure those items get completed as soon as weather permits.

Previous Meetings

Downtown Business Alliance to hold their Main Street event on Saturday June 27. City staff will provide the barricades which will be located on Main Street from 8am to 4:30pm. This event will be in conjunction with Zimmer Radio and serve as a fundraiser for Wings of Hope.

Public Works reports to be continuing to change out damaged meter boxes, along with swapping out 5/8 meters not working. They also have replaced the check valve at well 12. All wells are reported to be running good with no shut offs for low water. Crack sealing continues along with a final round for leaf pick up. The generator recently installed at Well 15 is up and running.

The Parks Department has announced a new 7-day schedule. Being able to open on the weekends has been a goal and with the recent hiring of a new Recreation Coordinator and some part-time staff we have been able to meet that need. For detailed information on gym use and any reservations one needs to go to their calendar www.webbcityrec.com/activitycalendar.aspx

Parks Department Staff have been working on making some changes to the yearly event schedule. We are planning to move the Cruisapalooza event more to the fall because the weather has been so warm and participation has fallen. The plan right now is to still have Fireworks in King Jack Park but only on the evening of the 4th of July. Cruisapalooza will not have a firework display at the end of the event. Staff are currently working on finding a fall date that would attract additional vendors, activities and car show participants.

The EPA has completed an attempt to seal up Paradise Lake in King Jack Park. Our city staff worked along with EPA representatives and placed several loads of additional clay along the bottom area that appears to be the persistent leak location. Time will tell but since we have not had measurable rainfall since November 20th and there is still water covering that area, there is hope we have made an improvement.

The city has been notified that the application for tax credits made by the owners of Cardinal Towers has been approved in full. Staff have been in contact with the owners and have asked them to be kept informed of the progress as they move forward in this large rehab project. At some point in the near future, we anticipate receiving a Chapter 100 application that will be reviewed and council will be asked to approve.

Fire Department members have been busy with the nice weather constructing the carport that was donated by Schuber-Mitchell. This area will be utilized with the training tower as a meeting and rehab area during the training sessions. It is exciting to have this along with our new tower and we look forward to utilizing it soon.

The 2026 Fire Academy is set to begin on January 19th, 2026. We have 8 confirmed recruits from the different area fire departments. One of the recruits is our intern and we look forward to watching her learn new skills and prepare for job placement once the academy is concluded. We have participation with Oronogo, Carl Junction, Carterville and Carthage. We are excited to work with these departments to help produce quality recruits for our communities

Polar Bear Express started Saturday night, right after the Mayor pushed the plunger that started up the 2025 Holiday Lights Season. As you can see our new Ticket Master has volunteered to keep the trolley loaded and moving along. If you have yet to ride the trolley this year, the Parks Department has really stepped it up this year. Not only improved lights in King Jack Park but the light show on the Trolley ride should not be missed.

Public Works reports that all connections on the **Tom Street main line replacement are complete. We are now preparing the street for pavement.** We will continue crack sealing to prepare for the upcoming freezing weather and also with leaf pickup starting December 1st they are busy checking the equipment.

Carl Francis
City Administrator

Recycle and limb yard gate is now open 7 days a week until 6pm.
Residential only may dump at limb yard

2026 Event dates to remember

February

(No events listed)

March

- 10th – Spring Soccer Games Start

City of Webb City

LVCP Grant
Equipment Purchase
Police Department
January 26, 2026

SUBJECT:

The police department is asking the Council to accept \$12,132.42 in grant funding awarded from the Missouri Department of Public Safety (MoDPS) – Local Violent Crime Prevention (LVCP). This is a “no-match” grant. The award should fully fund the purchase of 28 electronic language translators.

The police department is asking the Council to allow the police department to purchase the awarded equipment by following the City’s procurement policy.

BACKGROUND:

In September 2025 I applied to the LVCP program for \$12,132.42 in equipment needed in the daily operation of the police department.

In January 2026 I received notice that we were awarded \$12,132.42 from my application. This amount will be used to purchase 28 electronic language translators. LVCP should pay 100% of the cost of this equipment.

RECOMMENDATION:

Allow the Police Department to accept \$12,132.42 in grant funding awarded from the Missouri Department of Public Safety (MoDPS) – Local Violent Crime Prevention (LVCP).

Allow the police department to purchase 28 electronic language translators following the City’s procurement policy.

FISCAL IMPACT:

NONE – The Missouri Department of Public Safety (MoDPS) – Local Violent Crime Prevention (LVCP) should fully fund the purchase of this equipment.

Re: SFY 2026 Local Violent Crime Prevention (LVCP) Grant Award
Award Number: 2026-LVCP-022

Dear Mr. Francis:

Thank you for your application submission to the SFY 2026 Local Violent Crime Prevention (LVCP). Your application has been selected for funding in the amount of \$12,132.42.

Enclosed is the SFY 2026 LVCP Award Agreement. The Missouri Department of Public Safety (DPS)/Office of Homeland Security (OHS) asks you to carefully review and sign the documentation provided. By signing the Award Agreement and initialing each page of the Articles of Agreement and Special Conditions you are certifying your acceptance of the award conditions. Once signed and initialed, please return the documents to our office via email no later than February, 17 2026.

The project period of performance for this award begins January 15, 2026 and ends May 31, 2026.

We look forward to working with you on this award. Should you have any questions or need additional information, do not hesitate to contact Sue Ann Surface at (573) 751-5951 or SueAnn.Surface@dps.mo.gov.

Sincerely,

A handwritten signature in black ink that reads "Joni McCarter".

City of Webb City

Purchase of Sewer Main Camera Inspection System

1-26-2026

SUBJECT:

Purchase of Sewer Main Camera Inspection System for Wastewater O&M department.

BACKGROUND:

The City of Webb City Wastewater O&M department currently has a sewer main camera inspection system that is 16 years old. It has become obsolete and repair parts have not been available for several years now. Quotes for a new system have been obtained from three different suppliers. EJ Equipment for \$98,383.36, Armor Equipment for \$113,955.50 and Key Equipment for \$118,960.57. All three quotes are for comparable equipment and warranties.

COST:

\$98,383.36 for a replacement sewer main inspection system.

IMPACT & EFFECT:

The cost will come from O&M fund 41-84-49105. There is \$120,000 budgeted for the purchase of a new sewer video camera for FY 2025-2026.

RECOMMENDATION:

Staff recommends proceeding with the purchase of the Sewer Inspection System from EJ Equipment at a cost of \$98,383.36

1 GraniteNet Inspection Basic Kit

GraniteNet Basic captures a wide array of data and video from robotic transporters deployed in pipelines. It is highly specialized and customizable, yet simple enough for users to learn to operate quickly.

GraniteNet has many advantages which are critical to deploying a comprehensive Capacity Assurance, Management, Operation, and Maintenance program (CMOM) that is aligned with Federal regulations. Below are some of the key features offered by the software:

- Asset based architecture
- Dynamic pipe graphs are navigable to any observation within the inspection
- CD/DVD burning
- Synchronization
- Out-of-the-box Reporting
- Reports available in HTML, ASCII and PDF formats along with the standard printed reports
- Built-in functionality to email reports
- Unlimited still images can be captured (dependent upon hard drive space)
- User customizable forms and mandatory fields can be specified to meet client specifications
- Built in synchronization mechanism to allow precise data aggregation
- The ability to take additional still images (snapshots) during playback in the truck or the office
- Tasks can be assigned and managed throughout the system

The Basic Inspection Package includes the following components: GraniteNet Basic, Main Inspection Module, Analog Video Recording Module Mainline, Video Indexing Module, Titling, Distance Acquisition, Still Image Capture Module, and Data Transfer.

1 GraniteNet Inspection Basic Annual Support Plan

The annual Support Plan provides the following technical support services to ensure continuous productivity and up time in the field:

- Perpetual, free upgrades available online for downloading the most current versions of your GraniteNet Software to match the latest Microsoft Windows version you may have as well as including the latest technical documentation
- Professional telephone support Monday through Friday 8:00 AM to 5:00 PM ET
- Remote Online Technical Support**
- Access to online support services including FAQ's, the CUES knowledge base, User Forums and Video Tutorial
- Online review sessions with support specialists at pre-scheduled, mutually convenient times to review the proper use of the software including advanced administration and best practices

Re: EnviroSight Rovver X

Dear William and Darren,

Thank you for the opportunity to supply a proposal for the state-of-the-art Rovver X Camera System. The EnviroSight Rovver X is unequaled in performance, capability, expandability, and reliability by having little resistance in the pipe allowing quick, accurate, state of the art reporting capabilities. It is simple yet powerful and raises the bar and sets the standard for underground inspection systems.

Rovver X is the one system that lets you do everything: control inspections, view and record digital video, log observations, generate reports, and link directly to asset-management software:

- Steerable 6-wheel drive maneuvers past obstacles.
- Modular design adapts to pipe of any size, condition, and material.
- Compact system footprint can be deployed from any size vehicle.
- Digital controls automatically update to the latest features and support self-diagnostics.
- Scalable design supports lateral launch, side-scanning and laser profiling.
- WinCan VX included with every system purchase.

Rovver X, with its enhanced range, unmatched portability, simplified 3-piece system layout and powerful touchscreen controller, is the simplest to operate system on the market and yet the most advanced at the same time. The new pendant captures a day's worth of MPEG video and JPEG still images, lets you enter observations, upload to WinCan via the cloud and USB, and connects via Rovver-Link for remote diagnostics and firmware updates. In addition, RovverX offers a detachable remote-operated camera lift, three on-board cameras, and integrated sensor packages.

Rovver X features include:

- State-of-the-art camera system with solid-state circuitry
- Open-standard Can-bus Communication protocol (software driven system ensures infinite upgrade ability)
- Utilizes reliable RAM drive with a capacity to hold 64 hours of video recording
- RC90X pan/tilt/zoom (120x zoom) camera with dual lasers (lasers can be calibrated for easy measurement of observations)
- 10 optical, 12 digital zoom, with 40 LED's with Lifetime Warranty and proportional control
- Rovver X 6-wheel steerable crawler with inclination/pitch sensors and Sonde transmitter with on/off switch
- Auto-updating pendant controller uses CANbus with viewing, text generation, crawler control, camera control, cable reel control, digital video and still image recording, full digital output and auto reel with 1000' of cable
- VC500 pendant is 8" hand held color touch-screen monitor with 800 x 600 display resolution
- Report generating capability (exportable)
- Presets for viewing laterals or inspecting joints
- Video can be downloaded via USB flash drive or the cloud
- Twin multifunction joysticks with proportional control (crawler and camera)
- Automatic cable reel with 1000' of cable (1650' optional)
- Clutch
- Remote internet-based diagnostics, diagnostic services and firmware upgrades
- Built-in inspection menus with drop down menus for easy annotation, able to capture mpeg and jpeg
- Cruise control
- Integral rear view camera
- Built-in Sonde with on/off
- Multiple wheel sets available for variety of pipe composition and sizes
- Pressurization sensor
- Roll sensor
- Infinite upgrade ability and expandability (readily accepts DigiSewer, Laser Profilier and SAT Lateral Launch)
- Auto populates WinCan v8 database software

One (1) New EnviroSight Rovver X System includes: VC500 pendant controller with desk-mount and US –Connector PC-VC, RCX90 camera, RX130 crawler with backeye camera, inclination, sonde, clutch, RAX300 cable reel with wireless remote and 300M of orange Gore cable. Additional accessories include emergency stop cable for reel, mounting frame for reel, lifting tool, 2" tiger tail, pressurization kit. Quick-change wheels system (**including 6 hubs, 6 small rubber wheels, 4 medium rubber wheels, 4 large rubber wheels and 2 climber wheels**). WinCan VX Entry License

Additional Wheels Included in Total Price Below	
Four (4) XL Rubber Quick Change Wheels:	\$ 2,823.60
Four (4) Medium Aggressive Quick-Change Wheels	\$ 3,008.72
Sourcewell Price with freight and additional wheels:	\$ 112,460.57
Demo Camera Lift:	\$ 11,500.00
2012 Used Enclosed 14' Trailer purpose built for CCTV	\$ 21,500.00
Trade Allowance- Webb City Existing Camera System (RVX125)	<u>\$- 5,000.00</u>
Total Price w/trailer :	\$ 140,460.57
Total Price w/o Trailer:	\$ 118,960.57

Freight, Delivery, and Lifetime Training for Operators and Mechanics Included

Due to the potential impact of tariffs on material costs, import fees, and overall pricing, the parties acknowledge that any changes in tariff regulations that significantly affect the cost of goods or services under this agreement may require renegotiation of pricing or, if necessary, cancellation of the order. If such a situation arises, Key Equipment & Supply reserves the right to modify or terminate the order upon written notice to the buyer, with any deposits or payments subject to a mutually agreed resolution.

Thank you for your consideration of Key Equipment & Supply Co. and EnviroSight. If you have any questions, or would like additional information, please don't hesitate to contact me at 913-915-7801

Respectfully,

Nate Miller
